

1052 SIGNA

1052 SIGNA

MODEL DESCRIPTION

This upholstered suite from the SIGNA series can be optimally customised to your needs and wishes thanks to the large, well thought-out type plan. It is impressive both in terms of its appearance and its functional properties. The floor-free model combines seat depth adjustment and an invisible leg rest to create a large reclining surface.

SPECIAL FEATURES

GERMAN DESIGN AWARD SPECIAL

UPHOLSTERY

workmanship: casual look
backrest: Formasoft cold foam

SEAM APPEARANCE

seam type: closing seam, saddler seam

special features of the cover: not suitable for mohair fabrics
cover combination: not possible

TOGGLE SWITCH

The electrical function is controlled by a toggle switch on the side of the seat.

METAL FOOT

metal foot anthracite
metal foot beige
metal foot stainless steel look
metal foot schlamm

1052 SIGNA

ATTENTION

Please note the combination options for the add-on elements. Due to the different depths/seat depths, the variants with and without function cannot be combined with each other.

- ✎ Variants are available electrically and optionally with a rechargeable battery.
- ✎ Variants with a corresponding note are delivered disassembled for weight and technical reasons (assembly instructions are enclosed).

DIMENSIONS

All dimensions are approximate and may vary slightly. In the variants with seat depth adjustment, the seat depth changes by 28cm. A wall clearance of 26cm is required for the seat depth adjustment.

STORAGE BATTERY 0920

The external storage battery makes the furniture cordless. The simple handling with a plug connection and the small and easy-to-use charging station speak for themselves. Available in silver and anthracite. Recommendation: battery cover in matching cover.

SEAT DEPTH ADJUSTMENT

The seat depth adjustment is available either manually or electrically and enlarges the seat surface for even greater comfort. The electric control is conveniently operated via the toggle switch on the side of the seat – for relaxed sitting and effortless reclining.

LEG REST FUNCTION

This feature offers maximum seating comfort and adapts to your individual needs. In addition to the integrated seat depth adjustment, the leg rest can be adjusted electrically depending on the model, with the body panel elegantly transforming into the leg rest. The electric control is conveniently operated via the toggle switch on the side of the seat, ensuring easy operation.

1052 SIGNA

HEADREST

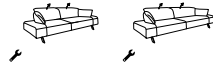

The headrest can be manually folded up from the rear to the front and can be individually positioned thanks to its ratchet mechanism – for ergonomic support of the head and neck.
