## ATTENTION

- ⚡ Variants are available electrically and optionally with a rechargeable battery.
- 🔧 Variants with a corresponding note are delivered disassembled for weight and technical reasons (assembly instructions are enclosed).

---

## DIMENSIONS

A wall clearance of 7cm is required to operate the Wallfree function.  
The dimensions stated on the price pages refer to the low seat height. The height and total height change accordingly.  
A wall clearance of 5cm is required for the electric end recliners.  
All dimensions are approximate and may vary slightly.  
The width specification for elements with side part is based on a slightly angled position of the side parts, as only in this position a dimensionally accurate and visually harmonious appearance can be guaranteed.  
With the supplementary equipment heart balance, the total depth is reduced by approx. 8cm due to the fittings.

---

## SUPPLEMENTARY EQUIPMENT

Z77 heart balance

---

## STORAGE BATTERY 0920

The external storage battery makes the furniture cordless. The simple handling with a plug connection and the small and easy-to-use charging station speak for themselves. Available in silver and anthracite. Recommendation: battery cover in matching cover.

---

## SUITABLE MODELS

7485 CUMUREX LOUNGE CHAIR

---

## WALLFREE FUNCTION, HEART BALANCE

The Wallfree function is available either manually or electrically and allows convenient adjustment of the backrest and leg rest. In combination with the optional heart balance function available for the electric versions, the leg rest can be raised to the soothing heart balance position.

# 1485 SPEKTRA

---

## **PULL-FORWARD FUNCTION**

The optional electric pull-forward function increases the seat depth to up to 80cm, depending on the element.

---

## **SIDE PANEL ADJUSTMENT**

The side section can be adjusted manually and customised to suit your individual needs. This allows you to set the position according to your personal preferences and enjoy additional comfort when sitting.
